Background and objectives:

This transnational training / capacity building is part of an Erasmus+ project, led by WIDE+ (COPGendered project). It is co-funded by the European Union and the Austrian Development Agency. The objectives are:

- Lay the ground for an in-depth understanding of relevant inter-linkages between gender equality and climate justice
- Raise awareness around the topics (un-)sustainable energy, transport systems, migration due to climate change, from an intersectional feminist perspective
- Build knowledge on women’s perspectives from the global South on “climate justice” and crucial elements of a “just transition”
- Raise awareness about women’s voices in relevant multilateral processes
- Create a knowledge base for the further development of adult education material (within the WIDE+-led COPGendered Erasmus+ project)
