

Gender and Climate Justice: Critical issues and awareness raising tools

Wednesday May 22, 2 to 6 pm

Cité Audacieuse

9 rue de Vaugirard, 75006 Paris
RER Luxembourg ; subway Odéon (10 mn walk)
Interpretation: French and English

This workshop will present the issues and productions of the project “Gender and climate justice: Knowledge for Empowerment”, coordinated by the European WIDE+ network, and supported by the Erasmus+ Programme. It will encourage exchanges between actors interested in analyses, educational approaches and advocacy on the intersections between gender, feminist approaches, climate and ecological transition.

Information and registration: please send an email to: contact@adequations.org
